

ART

SANDRA HEPWORTH

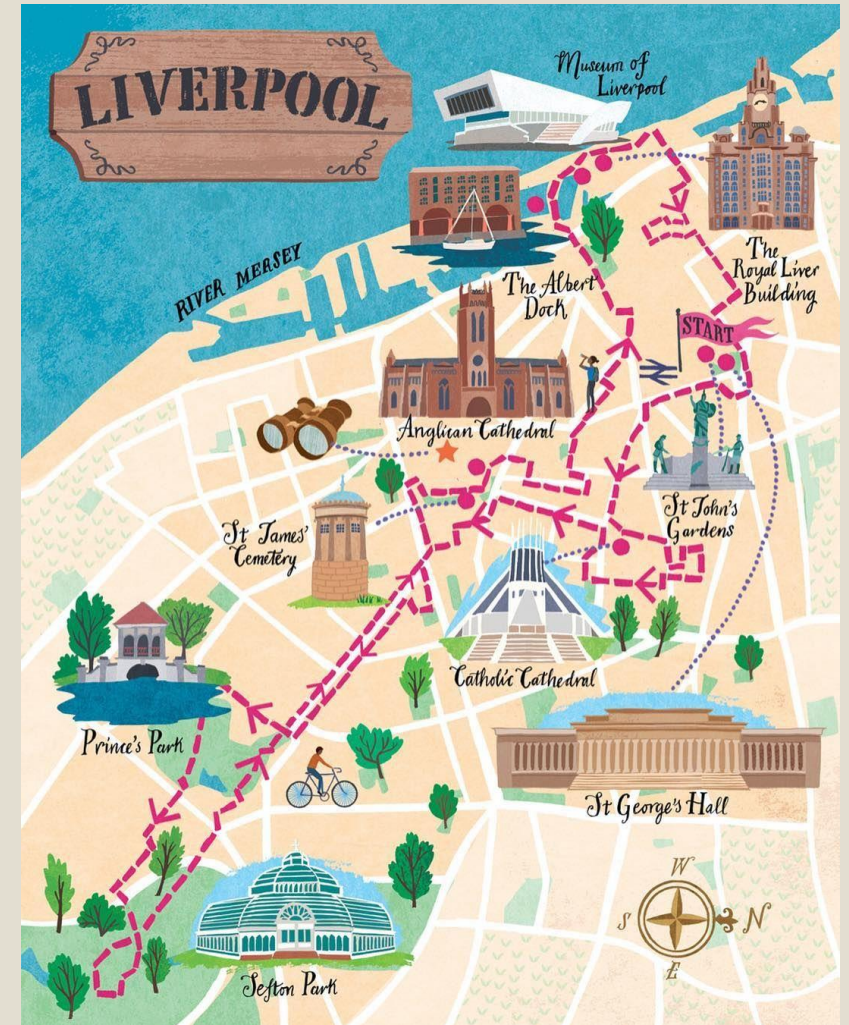

Liverpool...

This week in Geography, we learnt about the city of Liverpool.

The artist we are learning about today — Sandra Hepworth — is from the city of Liverpool.

She is heavily influenced by this city where she lives and grew up.

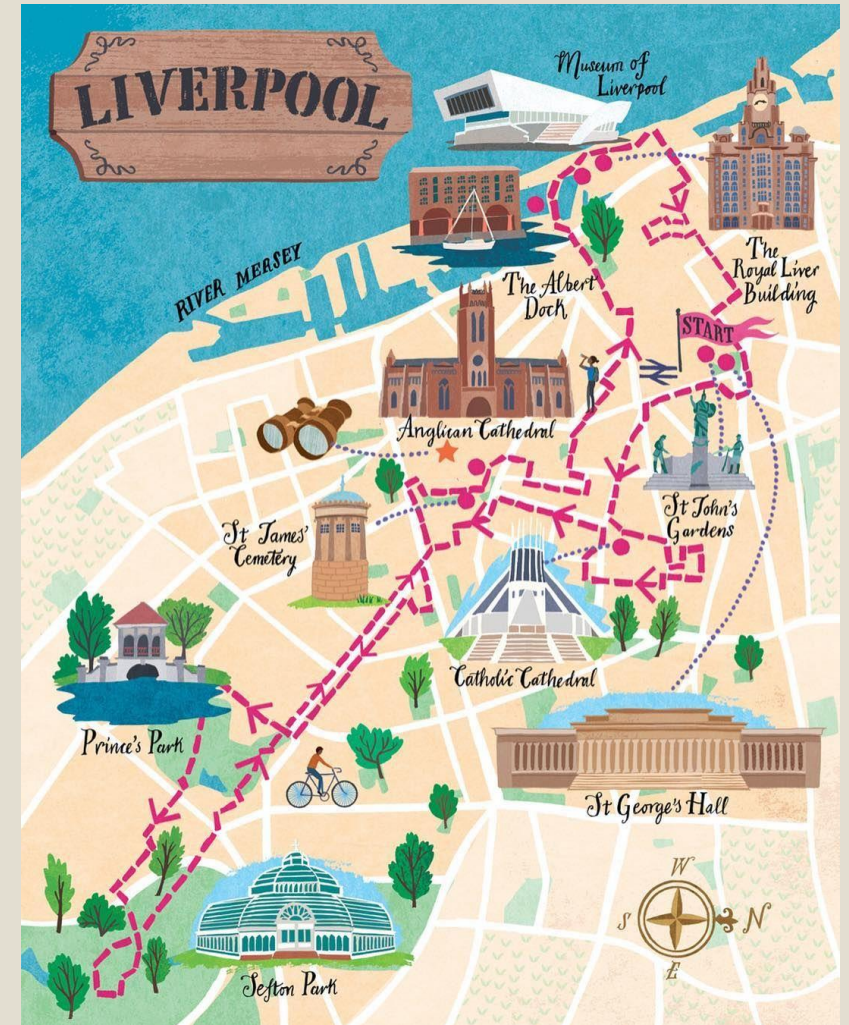

Textile artist

Sandra Hepworth is a **textile** artist which means she uses fabric to create her art.

She said:

"Nothing makes me happier than to collage, dye and embroider with recycled pieces of fabrics to create quirky Liverpool landscapes and scenes."

Task...

Sandra Hepworth loves to create her art out of old and recycled bits of fabric. Have a look around your house. Do you have an odd sock, an old t-shirt or an old tea towel?

Time to get creative. See if you can make something out of this recycled material. It could be a puppet, a little bag, a collage picture or a soft toy. You could glue, tie or even sew your project together. I would love to see some of your creations.
