

9.2.22

L.O. - I understand the relationship between equivalent fractions.

1.

Using the diagram, complete the equivalent fractions.

2.

Draw a diagram to show that $\frac{3}{4} = \frac{6}{8}$

3. Copy down these fractions and match the equivalent fractions using your ruler.

4.

a) Write the fractions in the correct place on the sorting diagram.

b) Are any of the boxes empty?

Why do you think this is?

Talk about your answer with a partner.

	equivalent to $\frac{1}{3}$	equivalent to $\frac{1}{4}$
odd denominator		
even denominator
