

- L.O. Classify organisms based on their similarities and differences

Science skills success criteria: <b>Classification</b>	Me	Teacher
*I can create appropriate groups of animals using my own criteria		
** I create groups and <b>sub-groups</b> of animals using a range of easily observable criteria		
*** I create groups and <b>sub-groups</b> of animals using <b>a fine range</b> of observational criteria		

# Tyne Valley zoo

- Sort and group the animals on the cards, so that similar species are housed near to each other. Put a coloured ring around each animal 'house' and label it. Can you create subdivisions within each enclosure and label those?

[illegible]
