

How a Coral Atoll Is Formed

- Watch [this video](#) and make notes about the formation of coral atolls
- Draw up to six labelled diagrams to show each stage of the process
- Write short paragraphs to explain each stage. As this is an explanation you could use the following **conjunctions** to link your ideas:

Vocabulary: coral reef barrier lagoon
millennia evolve volcanic eruption

Causal - so, therefore, because, as a result, consequently, thus **Adding** - also, in addition, as well **Contrasting** - although, however, but

A large, empty rounded rectangular box intended for drawing a diagram of a stage in the formation of a coral atoll.
