

Building Brick Towers Combining Groups to 8

We have been building some small towers of building bricks. If we put two small towers together, can you work out how many bricks we have used in total?

A yellow tower of 2 bricks and a red tower of 1 brick are shown. To the right is an empty rounded square box for the answer.

A green tower of 2 bricks and a yellow tower of 2 bricks are shown. To the right is an empty rounded square box for the answer.

A blue tower of 3 bricks and a red tower of 1 brick are shown. To the right is an empty rounded square box for the answer.

A green tower of 3 bricks and a yellow tower of 2 bricks are shown. To the right is an empty rounded square box for the answer.

A red tower of 5 bricks and a green tower of 1 brick are shown. To the right is an empty rounded square box for the answer.

A yellow tower of 6 bricks and a blue tower of 2 bricks are shown. To the right is an empty rounded square box for the answer.
