1. Lucy goes out for 2 walks a day with her dog, how many is this in total?

2. There are 7 ice lollies in a box. How many boxes do I need to buy for 49 guests at my party?

3. Melissa wants to go on a holiday for 3 weeks. How many days will she be away altogether?

4. A new book is on sale for £7. I have £84 to spend for my class, how many books can I buy?

5. If there are 7 footballs in a pack that costs £1, how much will I need to spend for the 35 children in my football club to have one each?

6. 20 × 7 = 140

   How does this fact help you to solve these calculations?
   40 x 7 =
   200 x 7 =
   30 x 7

7. It takes Fred 7 minutes to walk to school, how long does he spend walking to and from school each week? (Remember he walks there and back each day.)
   He also has to walk his little brother to school with him, how much time do they both spend walking?

8. Will the answer to the following calculations be greater or less than 140?
   12 x 7 =
   32 x 7 =
   19 x 7 =
   45 x 7 =

9. 80 x 7 = 560.

   Use this fact to work out:
   81 x 7 =   83 x 7 =
   82 x 7 =   84 x 7 =

10. 42 = ☐ x ☐   70 = ☐ x ☐

    Which pairs of numbers could be written in the boxes? How many can you come up with?
