

GEOGRAPHY

In Geography, we are going to learn about lots of different places in the world.

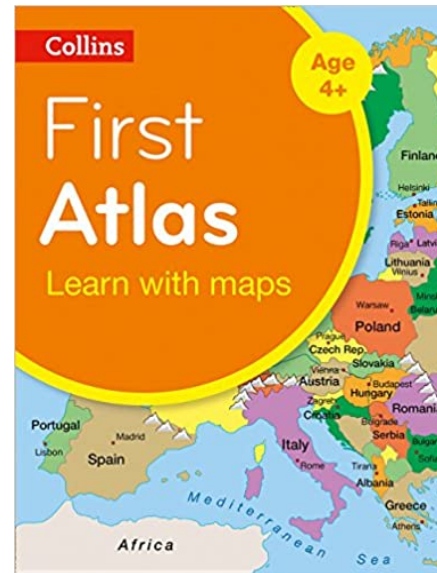

Plymouth

 <https://www.youtube.com/watch?v=7YSeDIUEdPA>

Let's learn to use an atlas...

We need to mark Plymouth on our map of the UK.

How would you describe Plymouth's location?

Plymouth is a port city.

A port is a place where ships dock to load and discharge passengers and cargo.

They are therefore located on a **coast**.

It is important to the Royal Navy for its
shipyards.

Mrs Henderson used to work on board a warship for the Royal Navy!

She worked on ships that docked in Plymouth and Mr. Henderson still works on board the warships!
