

World Habitats Game

Resources

This pack contains:

- Four World Habitat Game boards.
- One set of Living Things cards.

Instructions

- Give each player a Habitats Board.
- Shuffle the Living Things Cards and place them face down in the centre of the table.
- The youngest player takes the first turn.
- When it is a player's turn, they pick a Living Things Card from the top of the pile and read the name and description of the plant or animal.
- The player decides which habitat the living thing belongs in. If the other players agree that they have the correct answer, the player can keep the card on their Habitats Board.
- If the player has not guessed the right habitat, the card goes to the bottom of the pile.
- If all the players can't agree which habitat a living thing belongs in, the players may ask an adult.
- The first player to get all 8 Living Things Cards in a single habitat wins the game.

Jaguar: spotted coat for hiding in trees
