**The River Nile**

The River Nile is the longest river in the world!

- It runs through many countries in Africa, but ends in Egypt where it joins the Mediterranean Sea.
- In Egypt, people use the water from the River Nile to water their crops.

Feb 23-20:26

It was by the banks of the river that one of the world's oldest civilizations began.

**The Ancient Egyptians**

**Hieroglyphs**

The ancient Egyptians invented one of the earliest known writing systems.  
The symbols they used were called hieroglyphs.  
The ancient Egyptians believed that hieroglyphs had been invented by the gods.

A large pyramid, likely the Great Pyramid of Giza, stands prominently in a desert landscape. The pyramid is constructed from golden-brown stone blocks. In the foreground, there are smaller, partially ruined structures and a few small figures of people, emphasizing the scale of the monument. The sky is bright blue with scattered white clouds.
