General Statement	General information to introduce the topic - why are vegetables good for us?	The Egyptians believed that when they died their soul left their bodies. Unless their body was preserved, it would be no good in the afterlife. Not everyone could afford to, it was a very expensive process that took around 70 days to complete.	
Step 1	Subheading 1 - the first of your logical steps.  Information specific to this subheading.	<u>What was the process?</u>  The body was taken to a place called the Beautiful House. It wasn't as beautiful as the name suggests! The body was cleansed with palm wine and rinsed with water from the River Nile.	
Step 2	Subheading 2 - the next of your logical steps.  Information specific to this subheading.	<u>Organs</u>  A cut was made on the left side of the body and the organs removed to stop the body decomposing. The liver, lungs, intestines and stomach were washed, dried in natron (which is a natural salt)	
Step 3	Subheading 3 - the last of your logical steps.  Information specific to this subheading.	<u>Brain</u>  The brain wasn't thought to be important! A long hook was pushed up through the nose to smash the brain to pieces,	
Fun fact	Memorable piece of information to leave reader thinking.  Did you know?	75% of the body is water. Wet things rot very quickly so the body was dried inside and out with natron. Natron absorbed the moisture but it could take 40-50 days.
