### Introduction

When you add a suffix (that starts with a vowel) to words of more than one syllable, and the final syllable is stressed then the final consonant will be doubled. e.g. forget/forgetting

### Main Teaching Activity

Get children to sort the words on the power point slide by listening to their sound and whether or not the final syllable is stressed. Should an extra consonant be added or should the suffix go straight on the end? Get the children to sort them on their whiteboards and share their results.

Discuss the answers and any misconceptions.

### Independent Activity

Children to work in pairs to practise writing the words, one child picks a word and their partner writes it on the whiteboard. The first child checks the word and then they switch roles.

Look at the root words and decide which spelling rule they should follow in order to add the suffix 'ing'.  
Which box should they go in?

(tip listen to hear if the last syllable is stressed or not)

develop	forget	listen	begin	cover
garden	forbid	prefer	limit	permit

Double the final  
consonant

Just add the  
suffix

Look at the root words and decide which spelling rule they should follow in order to add the suffix 'ing'. Which box should they go in?
