

25.1.22

LO - I can work out the area of a shape by counting squares.

- 1 Count the squares in each shape to find the area.

Which shape has the greatest area?

- 2 What is the area of the shaded part of the shape?

- 3 Here is a kitchen tile.

- a) What area of the tile is blue?  
b) What area of the tile is white?

- 4 These two shapes are made up of squares of the same size.

These two shapes have the same area.

Jack

Rosie

The first shape is bigger as it takes up more space.

Who is correct?

Explain how you know.

5. Here is a patchwork quilt. It is made from different coloured squares. Find the area of each colour.

Purple = \_\_\_ squares    Green = \_\_\_ squares  
Yellow = \_\_\_ squares    Orange = \_\_\_ squares

6. Here is a rectangle.

- a) The rectangle has  rows and  columns.  
b) What is the area of the rectangle?  
c) How did you work out the area?
