

L.O. Develop my own ideas using the structure of a known text that creates a feeling of suspense.

'Ice Forest' Bare bones	My text ideas:
Opening sets an uneasy scene – personification, metaphor; unwelcoming setting; powerful description of significant details, suggesting time of day & season.	Mc/main character Evan
	Set in rainforest
	Sky is very dark
	There are lots of noises
Tension built – setting used to increase discomfort; unknown threat introduced – MC shows emotions & reacts. Threat revealed but easily dismissed – tension falls	
2 nd character introduced as an 'ally' of MC. Setting described positively from his/her P.O.V – new character is comfortable there – emotions & descriptive details support this	
MC unable to use some senses in setting. Main threat hinted at - 'empty' words used. Short sentences for effect. MC longed for 2 nd C to help. All appeared to be hopeless – vague descriptions add unease	
Threat appeared and described in some detail. MC used cunning to escape (not strength or skill)	
MC revealed emotions - re-lived further details of the main threat in mind. Short sentences used for a brief rise in tension, before 2 nd C arrived for reassurance
